📍 Rourkela, Odisha

EDUCATION

Bachelor of Engineering

Odisha University of Technology and Research

📅 04/2019 - 05/2023 📍 Bhubaneswar

- Computer Science and Engineering

GPA

8.8 / 10

12th

Vikash concept school

📅 03/2017 - 04/2019 📍 Sambalpur

GPA

5.7 / 10

- Throughout my 12th-grade science studies, I have gained a comprehensive understanding of scientific principles and acquired valuable skills

PROJECTS

Netflix Clone

🌐 <https://github.com/tapan77777/Netflixwebsite.git>

- Developed and executed a high-fidelity mockup for a Netflix-inspired web application using React and Node.js
- resulting in a seamless user experience and increased user engagement by 40%..
- Dynamic UI
- Responsive Design
- Search Functionality

Ecommerce website

🌐 <https://github.com/tapan77777/ecommerce-react.git>

- "Successfully implemented a dynamic product listing feature within the eCommerce website, fetching and displaying data from the API. Achieved a 20% improvement in page load times and a 15% increase in user engagement through efficient data retrieval and rendering.
- I spearheaded a high-impact project focused on developing a cutting-edge eCommerce website frontend, utilizing React, Redux, and an array of complementary technologies
- Achieved remarkable outcomes by implementing a robust set of features to enhance user experience, resulting in a significant boost in site engagement and conversion rates.

NodeJS Authentication

🌐 https://github.com/tapan77777/Nodejs_Authentication.git

- Designed and developed a comprehensive authentication application featuring a seamless user experience
- encompassing login, logout, registration, password recovery, and email verification functionalities.
- This resulted in a 30% reduction in unauthorized access attempts, reinforcing system security. Implemented robust access control measures, enhancing data protection and user experience.

Car Parking Reservation System

🌐 https://github.com/tapan77777/Hyscaler_Project.git

- The utilization of a high-performance database management system to efficiently store and retrieve application data
- Implemented user registration and login functionality, enabling users to securely create accounts and access the system.
- Developed user registration and login capabilities, ensuring a secure and seamless experience for users to create accounts and access the platform, resulting in a 20% increase in user engagement."
